# Be a Part of the Future

Time...there's just not enough of it! That's why it's so important to work with a program that has already put the building blocks in place. Of course, you make your own decisions, but you don't have to start from square one. The Indiana Hereford Association would like to extend an invitation to you to join the association. This is a wonderful organization that promotes the Hereford breed and honors its members.

As the Board of Directors of the Indiana Hereford Association, we are here to serve the best interests of the members. We work to provide programs, services, technology and leadership to enhance the genetics of the Hereford breed. We diligently strive to broaden the Hereford breed influence within the beef industry and to expand the market for superior-tasting, high quality Hereford beef worldwide.

Indiana is a very special place to be involved in the Hereford business. Indiana Hereford breeders consistently show well at National shows. Our junior association is strong and eager to meet the future and its many changes. The juniors are the life of the Hereford business in Indiana. The strength of our junior organization gives us reason to believe the Hereford breed will be strong in Indiana for a long time to come.

You have the opportunity to get involved with this organization. The rewards are everlasting! Please fill out the membership form below. Let's work together to strive for the Hereford breed to get a bigger market share of the beef industry.

Sincerely,

Officers and Directors  
Indiana Hereford Association

*Membership dues are \$25 annually made payable to the Indiana Hereford Association. The form below and check should be mailed to:

50 brood cows

Sale last Sunday of September with Green Meadow, Jasper, Ind.

# “One of the first daughter’s of HB Loaded 7822”

## What do you want from your bull...

...a live calf, good milking daughters, eye appealing, correct, and big rear-ends?

### Some facts about HB G. K. 8433

- Calving ease direct in the top 15%
- Calving ease maternal in the top 20%
- Actual birth weight, 60lb.
- EPD for birth — in the top 3%
- Milk — in the top 30%

### Other reasons to consider using 8433....

- He tracks wide and true on the move (you can see his correctness from the photo)
- He is a choke fronted meat wagon (he is uniquely clean fronted considering the size of his butt)
- He is in the non-certificate sire program, so no AI certificates are needed to register calves. Now how cool is that?
